Dear Astrology Enthusiast,

More than ever we need good astrologers. In a field where almost anyone can hang out a sign and call themselves an astrologer, (when in fact, they may be a card reader, psychic or any one of a myriad of unrelated things) the ethics, integrity and profound wisdom of our art/science can be blurred in the perception of the average consumer. The fact that you are interested in studying astrology shows that you are aware of this, and you should be commended for taking the all-important step of trying to get a good education in a field where a comprehensive curriculum is hard to find.

Many students live too far from a teacher and do best in a live format. This course is a recording of a live class and so fulfills that need for those people. Quite a few students say they forget they are *not* in the class and find themselves getting caught up in it. They feel they get to know the recorded students intimately.

Other students like to study on their own because they can go at their own pace. They may take more or less time to learn than the average person. Our format satisfies that, as well, since one can forge ahead quickly or go over and over subject matter until it is retained thoroughly, all in the privacy of one's home.

Perhaps your schedule precludes being able to be present at an online school at the appointed time, or you may not like to type on a keyboard to interact with a teacher who is online "live" and compete for attention with several others who are online at the same time. Plus, everyone sees what you have written or asked, so you might be rather inhibited in asking things you really want to question. This course eliminates all that, although you can choose to communicate by email and send in your work electronically if you wish. No one sees it except you and the instructor. (However, *with your permission*, some questions and answers may be shared with everyone at a later time.)

Every effort has been made to make this study as easy to master as possible by using step-by-step methods which combine audio with a workbook. This technique will enable you to thoroughly understand the material and apply it to increasingly complex situations. As with all multi-faceted subjects, however, it will require quite a bit of effort on your part.

You will also need to purchase three books: ***The Midnight American Ephemeris, The American Atlas and the Michelson Koch Tables of Houses***, which comes in a volume that includes Placidus—all available through Astrology Et Al Bookstore 800/655-8273.

When you enroll, you are not just getting CDs (or an audio download); you are getting the related material (in the workbook), guidance if you have difficulty, and correction of your homework.

If you want CDs mailed to you, they are sold in semester sets. You can buy as little as one semester at a time. If you wish to do this through the website via audio download, you can purchase one topic at a time. It is suggested that you complete each semester and pass its test before going on to the next, but you can wait and pass those tests later after becoming more

confident through the next semester's studies.

CDs cannot be sold out of sequence by mail, but you can skip a semester if you feel you do not need it. If you wish a certificate for any skipped semester, a test would have to be passed, and there is a small fee (only for skipped semesters) for the correction of the test and the certificate. If you are downloading audio online, then you can choose any topic you want in any sequence.

The quarterly newsletter *Cosmic Views* is available on my web site, www.devineadvantage.com You can access it every few months and print it out whether you enroll in this course or not. Hopefully, you'll keep in touch this way.

Sincerely,

Carole Devine

EXPLORING ASTROLOGY

Application for Admission

Name _____
Address _____
City, State, Country _____
Home Telephone _____ Business Telephone _____
E-mail _____ Fax _____
Date of birth _____ Time of birth _____
Place of birth _____

Educational background, including previous Astrological studies _____

I understand that this course can be purchased by the semester or in its entirety. Purchase of the course does not guarantee a certificate of completion, which is earned only by demonstrating mastery of the material through testing. With this enrollment, I enclose payment for as many semesters as I wish, and this includes the workbook, privilege of asking questions, all work reviewed by the instructor, and the periodic Student Letter.

The Student Letter is sent as long as I show continued effort. I understand that if I do not believe I wish to take the course at all after auditing the first tapes or CDs I receive, I may return them and the workbook, undamaged **within 30 days**, for a full refund.
